PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in data analytics, business intelligence, and software development. Skilled in transforming raw data into meaningful insights using Power BI, SQL, Python, and Excel. Experienced in developing interactive dashboards, performing data analysis, and building technology-driven solutions. Also experienced in frontend development with practical knowledge of modern web technologies and collaborative software development workflows. Strong problem-solving, communication, and teamwork abilities with a passion for data-driven decision-making and continuous learning.

EDUCATION

Bachelor of Science in Computer Science

Sep 2022 – Jun 2026

COMSATS University Islamabad, Attock Campus | CGPA: 3.52 / 4.00

TECHNICAL SKILLS

Data Analytics & BI: Power BI, SQL, Microsoft Excel, Data Cleaning, Data Visualization, Dashboard Development, KPI Reporting

Python Data Libraries: Pandas, NumPy, Scikit-learn

Databases: MySQL, PostgreSQL

Software Development: HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS,

PROFESSIONAL EXPERIENCE

Frontend Developer — Drivethru

Jul 2026 – Present

- Collaborated with the development team to enhance frontend functionality and improve user experience.
- Developed and improved course and university filtering features according to project requirements.
- Identified and resolved UI issues, improving interface consistency and usability.
- Worked with Git/GitHub workflows including branching, pull requests, code reviews, and feedback implementation.
- Coordinated with team members to deliver assigned tasks within deadlines.

Data Analyst Intern — Pakistan Aeronautical Complex (PAC), Kamra

Jul 2025 – Aug 2025

- Developed interactive Power BI dashboards and Excel reports to support engineering and operational decision-making.
- Cleaned, transformed, and analyzed datasets using Python and SQL to improve reporting accuracy.
- Performed data analysis to identify trends, patterns, and insights from operational data.
- Collaborated with technical teams to organize reporting processes and improve data-driven workflows.

ACADEMIC PROJECTS

Healthcare Operation Analysis Dashboard | Power BI, SQL

- Developed an interactive healthcare analytics dashboard to monitor operational KPIs, patient trends, and performance indicators.
- Used data cleaning, transformation, and visualization techniques to generate actionable insights.

Customer Churn Prediction System | Python, Machine Learning

- Built an end-to-end machine learning project to predict customer churn using telecom customer data.
- Performed data preprocessing, exploratory data analysis (EDA), feature analysis, and model evaluation using Python.

E-Commerce Sales Analysis Dashboard | SQL, Power BI

- Developed an interactive sales analytics dashboard using SQL-based data extraction and Power BI visualization.
- Analyzed product performance, revenue trends, and business growth metrics.

CERTIFICATIONS & ACHIEVEMENTS

- IBM – Data Analysis with Python (Cognitive Class)
- Top Performer – DataBuzz Power BI Challenge (May 2026)
