PROFESSIONAL SUMMARY

Computer Science graduate from COMSATS University Islamabad (CGPA 3.52/4.00) with strong knowledge of Software Engineering, Python, Data Analysis, Web Development, Artificial Intelligence, and Database Systems. Experienced in developing software applications, interactive dashboards, and data-driven solutions through academic and internship projects. Quick learner with excellent problem-solving, analytical thinking, teamwork, and communication skills, eager to contribute to software development and technology-driven organizations.

EDUCATION

Bachelor of Science in Computer Science

Sep 2022 – Jun 2026

COMSATS University Islamabad, Attock Campus — CGPA: 3.52 / 4.00

TECHNICAL SKILLS

Programming: Python, JavaScript

Web Development: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js, Node.js

Data & BI: Power BI, SQL, Microsoft Excel, Python (Pandas, NumPy)

Databases: MySQL, PostgreSQL

AI & ML: Machine Learning Fundamentals

Tools: Git, GitHub, Streamlit, VS Code

PROFESSIONAL EXPERIENCE

Data Analyst Intern

Jul 2025 – Aug 2025

Pakistan Aeronautical Complex (PAC), Kamra

- Developed interactive dashboards using Power BI and Excel to support engineering and operational reporting.
- Cleaned and analyzed production datasets using Python and SQL.
- Collaborated with technical teams to improve reporting accuracy and operational efficiency.
- Applied analytical and problem-solving skills in a professional engineering environment.

ACADEMIC PROJECTS

AI-Based Course Registration Advisory System (Final Year Project)

- Developed an AI-assisted course registration system to recommend courses based on students' academic performance.
- Implemented prerequisite validation and timetable conflict detection.

FreshTrack – Inventory Management System

- Built a Streamlit-based inventory management application with expiry tracking, reporting, and search functionality.

Customer Churn Prediction System

- Developed a machine learning model using Python for predicting customer churn, including data preprocessing and model evaluation.

Social Media Analytics Project

- Analyzed social media engagement data using Python to identify trends and generate insights through visualization.

E-Commerce Sales Analysis Dashboard

- Designed interactive Power BI dashboards to analyze sales performance and customer purchasing behavior.

CERTIFICATIONS & ACHIEVEMENTS

- IBM – Data Analysis with Python (Cognitive Class)
- Top Performer – DataBuzz Power BI Challenge

- Internship Completion Certificate — Pakistan Aeronautical Complex (PAC)

PROFESSIONAL STRENGTHS

- Problem Solving
- Analytical Thinking
- Software Development
- Team Collaboration
- Communication Skills
- Leadership
- Time Management
- Adaptability

LANGUAGES

- English — Professional Proficiency
- Urdu — Native
